★★★★★ by Nikko Cataluna on 2017-10-25

Great team! My first time there; the whole crew are true professionals. I have pretty good insurance, so it paid for most of the procedure. Still almost \$ 2,000 for a root canal is still pricey. I hope I wasn't over charged. Didn't really have time to price around since I was in pain and needed the procedure done ASAP. I see why some people just elect to get their tooth pulled. I feel bad for people who can't afford these procedures.

★★★★★ by Thomas Cherian on 2017-10-13

I was referred to this clinic by my general dentist for expert management. The experience was good. They explained everything to me and gave me options and worked with my insurance. I decided to proceed with the procedure and they made it possible to have it done during the same appointment saving me a lot of time in my

current busy life. Dr. Shbeeb did a thorough job. I was especially blessed by the dental assistant Steven (I believe that is his name) who was kind & compassionate and explained everything to me. He was definitely pro-patient in his approach and that made me less anxious about the impending repeat root canal procedure. Thomas Cherian

★★★☆☆ by Lorraine Rodricks on 2017-04-17

The initial visit went well, but was not prescribed and antibiotic and ended up needing one. Last Friday was the first day I was able to chew on that side, I was very disappointed when after chewing for the first time my permanent crown, that you had temporarily cemented, came off and I swallowed it. I am now being told it will cost me over \$1,000 for a new one.

★★★★★ by Mary Tretola on 2017-03-14

I went here in extreme pain. Everyone from the front office staff to the medical assistant, to the dentist, were amazing! This team is professional, caring, and thorough. The dentist quickly gave me the answer to what was causing my pain, and did not try to sell me something I didn't need. If they ever recommend that 3D imagining, DO IT!!! It will save you thousands in the long run. This is for sure my new go to family endodontist.

★☆☆☆☆ by Anjum Shiekh on 2017-02-03

Your staff failed to tell me that there will be a charge of \$430 for the office visit when I checked in. I was only told this as I was leaving. Your staff stated that they check with the insurance company every month to ask what their new policy is regarding charges and hence they had not told me the charges over the phone. However, that does not explain why they did not tell me that when I first checked in. Furthermore, insurance is a yearly thing from my perspective. I sign up for a year and my copay doesn't change every month and to me it seems odd that the insurance company would tell you different rates for customers for each month. On the positive side, your staff remained friendly and professional at all times. I did not have to wait around to see the doctor.

★★★☆☆ by Edgar Saucedo on 2016-04-01

I had an appt. time set up. It took close to an hour to get in. After going in, i had to wait a little more. There was only one patient that i seen there. After the dr comes in,

he points out what my usually dentist had pointed out to me. After initial lookup, there finance manager or whom ever comes in and talks about how good of an insurance i have and how much they cover. Out of pocket, 250. I stated that was to much and then she proceeded to say how i dont have to have the antibiotic injections and cut \$75 off bill. so 183 to pay. But before i forget she basically talk about how expensive it was to do a reroot canal and that my insurance is paying 1200 and that i am getting a good price. Selling me for sure. After all said and done, they were able to pull off my crown and save, but when they put it back on the bite was off. I proceeded to tell them it was off and was told that it feels that way because my mouth was numb. I told them no, the bite is off can you adjust it and after going back and forth, i was told to contact my regular dentist to adjust it. So 1 week of having my bite off and feeling weird. Only grateful thing they did was pull my loose crown off with out drilling and cutting it off. Bad part of my story, i was force to get a new crown from my usually dentist. WHY? because instead of cleaning old cement so that it would fit properly, like they said they would, they shaved my crown down to adjust my bite. The whole time in the chair, i thought they were doing what they said and clearing the old cement but instead doing the opposite and grinding down the crown to force me to buy a crown. THIEVES!!!!!! If Root 66 had done there job, my bite wouldnt be off and i wouldnt have had to go in to adjust and get rip off. BEWARE!! of dentist nowadays. white collar crime!!

★☆☆☆☆ by Linda Loucks on 2016-04-01

I was disappointed because I feel this place did not meet my needs. When I was told my tooth needed to be extracted because it had become infected. The doctor basically told me, well ad soon as you have this done you will feel better. A few days went NY and I was in pain. After another ex ray at my regular dentist they put me in antibiotics. the doctor at this place failed to prescribe me the medication I needed which could have been very serious. don't think I will be back.

Dr. Halpern and his staff set the gold standard in endodontics! He has performed two root canals for me in the last 5 years and I wouldn't go anywhere else. Dr. Halpern is exceptionally professional and competent, very tall, and extremely gentle (somewhat like a teddy bear). Infected teeth can be a nightmare to endure. He helped me so much that I can only sing his praises. Great staff, too!

★★★★★ by Bob Ellis on 2016-03-18

Where do I begin: This was the most fantastic experience I have ever had at anytime in my life. I know that sounds like I am either crazy or I am being paid to say it but its just the truth. I had two root canals done and could not tell the difference of having a small cavity filled or the root canal. If my dentist told me I needed another one I would rush down to Root 66 and ask for Dr. Halpern and get it done. Almost sounds to good to be true but its that easy and he is that good. I can not say enough...

Fabulous, clean, modern office with personable and engaged staff. This was my first visit. A referral from my primary dentist. After completion of first time visitor paperwork, I'm in the chair for a consultation and X-rays before the doctor exams me. Shortly after the X-rays the dr. Introduces himself. He asked plenty of questions and answered all of mine to ensure that I understood my pending procedure and some of the causes that may have contributed to my condition. By the time I was out off the chair, I knew what my financial commitment was!!! I like that! NO surprises,,,great service! smiling! friendly! courteous staff! Thanks!

I just received a follow up call from the root 66 staff and to be honest it shocked me. I have never received a follow up from any dental office. I was already thoroughly impressed with my entire experience but the call hit it out of the park. If more dental practices were run with the level of professionalism and genuine care I received no one would ever be afraid of "going to the dentist". I certainly hope I will never need another root canal, but Root66 would certainly be my office of choice. I will also be referring any of my friends and family who need any endodontics work. Thank you Dr. Halpern and the staff of Root 66.

Like many people, I was terrified of having a root canal. I had never had one before but I had had fillings. Fillings were always painful and scary so I was expecting this to be even worse. To my very pleasant surprise it was the exact opposite. The doctor and all the staff were very friendly and made sure I was comfortable from the moment I walked in the door. The office and waiting rooms were very well kept and had current magazines and a tv to keep your mind off the impending drilling. The procedure was amazing. The doctor made sure I was numbed up really good before getting started. I felt absolutely no pain during the whole process. They did a really good job of talking me through what they were doing and what my options were. After I was done, I paid at the front desk and they even gave me a little goodie bag with detailed instructions on how to care for my tooth. All around amazing experience. I wish all dental procedures were this nice...none of us would be scared of going to the dentist/endodontist if everyone's experiences were as nice as mine was. I got my root canal yesterday and I have already been recommending root 66 to my friends.

★☆☆☆☆ by Dana Shool on 2014-01-15

I had a tooth that was giving me a problem, and was referred by my regular dentist. During my root canal, the doctor broke my tooth and did not inform me. I started swelling and felt it wiggling. When I called the office I was told that is normal and not to worry. When I went back to my dentist, he told me it was broken to the root and that I'd have to have my tooth pulled. He felt awful, so he called Dr. Halpern. He was told that they would repay me. I called the office three times, and was told every time that they were investigating. I finally wrote a letter and was called back, when the accounts person told me that she already called me (which she never did). After arguing for over 10 minutes, she finally agreed to pay back my co-pay, but that they would keep the insurance payment. Overall, horrible experience.

★★★★★★ by Robert Lake on 2014-01-08

My experience was the best I've ever had with a dentist! The entire staff there is awesome,friendly,polite,curtious and professional. The office is clean and first class,hi

tech and well organized. They seem to have all the latest equipment also. I had a root cannal and the procedure was basicly pain free even the injections were very very comfortable (and I hate them), I'm a dental coward but they put me at complete ease and keep me very comfortable. First class all the way from the receptionist to the doctor. I will never go anywhere else for this type of treatment.

I had an emergency root canal last night. I had never been to the office and appreciated you staying open "after hours," to care for my tooth. I had been in extreme pain for 5 days! The dentist was very gentle and had an awesome bedside manner. It took him some time to complete the job as it was at a difficult angle but he

did not make me feel like it was a problem for him. He told me that my mouth/tooth may be sore for a day or two but I immediately felt better and my tooth is not even sore! I thank you all for being so hospitable to me and would recommend your office to all in need of superior dentistry! Thank you kindly, Jodi

This was a good experience, considering it was a root canal. The staff was calming, considerate and very very gentle. I am not a fan of needles, etc but I was in/out in only 90 minutes including waiting room, numbing, etc. Wow. There was minimal pain, as well. I would recommend Root 66 to anyone, especially dental chickens.

I was very pleased with the promptness and professionalism of this group. When requesting an appointment I did not have to wait weeks or months and they were very accommodating of my schedule. The staff is very pleasant to deal with. I couldn't ask for a better experience as far as dental surgery -no matter what it is not pleasant! Dr. Halpern said I would not feel anything and he was true to his word! Even the after effects have been much less than I expected!
